APPRENTICESHIP ROADMAP

Apprentices get the best of both worlds with academic, classroom learning and on-the-job practical learning to help reinforce important plumbing or HVAC concepts. With in-person and online class environments to choose from, the Plumbing & HVAC apprenticeship programs can be a great fit for those looking to earn while they learn their skilled trade!

Complete a high school degree program or GED certificate

Review the phccia.org website to find member contractors or contact PHCC for this info

Contact PHCC-IA contractors to ask about apprentice positions & apply for employment

Start your career with your contractor and establish the best time for you to start your apprenticeship

Begin your apprenticeship with your employer as your sponsor & attend classes to reach the 576 required hours

Earn and record 8,000 on-the-job (OJT) hours as you work full-time for your employer

Finish your apprenticeship program and receive your completion certificate

Apply for and take the state journeyperson exam and work hard to get a passing grade

Apply for your Journeyperson License and begin earning competitive wages as a licensed journey worker in the State of Iowa!
